**Subject:** Petroglyph visit tomorrow

Bruce,

Just to let you know, Kevin will not be able to attend your scheduled meeting with him tomorrow. I will be attending in his absence along with Jake Powell. I wanted to let you know in case that changes anything with the security people downstairs.

Also, we are going to need to drop our bags at the hotel before coming over to your office. Our flight arrives at DIA at noon so it may be a little after 1:30 before we arrive at your office.

I have went through all of our records on injectors and compiled some graphs of our MAIP history that I would like to share with you and perhaps talk some more about the decision that was made on what Beau presented to you last year.

In going through our records, I've come to believe that our records here are incomplete as several individual well permits reference area permit modifications that we do have in our records. I would like talk to you about getting a copy of those permit modifications along with some documents that the permit says Petroglyph submitted for EPA's administrative record. I know you mentioned at our last meeting that many of your records have been moved offsite, so I don't expect you to be able to help me immediately with that request on short notice.

Mike
